Incorporated Village of East Hampton

Application for Building Permit

Information and Application Instructions:

1. This application must be submitted in duplicate (clear and legible copies are accepted) in ink or typewritten and submitted together with one original survey or site plan (see item two, below), one complete set of plans drawn to a uniform scale and specifications which shall include pertinent information fully and adequately describing the work proposed, including plumbing, heating, electrical and all other building components or systems. No check or payment is required to be submitted with the application – you will be notified of the fee amount and be required to make payment in order to obtain your building permit. Any permit application including any modification to an existing sanitary system or a new sanitary system must also include the approval of the Suffolk County Department of Health Services or the approval of the East Hampton Town Scavenger Waste Management program. Incomplete submittals may be summarily rejected at the discretion of the Code Enforcement Officer.
2. It is expressly noted herein that applications submitted with a detailed site plan in lieu of an original survey by a licensed surveyor may be processed – provided that they include all of the information required by the Code of the Incorporated Village of East Hampton, The Codes of New York State and all other laws governing building construction and safety. For all applications involving swimming pools, please refer to item numbered three, below. No Certificate of Occupancy will be issued by this office without the submittal of an original survey by a duly licensed land surveyor indicating all improvements to the property (including all those below grade – sanitary systems and drywells / drainage structures), all utilities, lot area calculation, lot coverage calculation, gross floor area calculation, accessory building gross floor calculation, demarcation of any areas affected by covenant, restriction or easement and such elevation information as needed to illustrate compliance with local height regulations in full compliance with applicable New York State Education Law. Properties in any designated Coastal Erosion Hazard Area, Flood Zone, Freshwater Wetlands, Historic District or those properties put to commercial uses or subject to additional requirements under local zoning will be required to include specific information relative and unique to the property and condition(s) such as flood zones, lowest floor elevation certification (pursuant to both local law and Federal Emergency Management Agency regulations), local historic district, and all other information required at the discretion of the Code Enforcement Official.

3. Applications involving swimming pools must indicate the following information:
 - a. The location of the proposed pool.
 - b. The location of any overhead or buried electrical wires or service.
 - c. The location of the pool drywell (must be capable of completely draining the pool with twelve hours).
 - d. The location of the pool equipment.
 - e. The proposed enclosure of the pool equipment as is required by Village Code.
 - f. The location of the pool enclosure system, including all fencing, the location of any gates and a notation indicating how any doors in the house are to be addressed if the house is used as part of the enclosure.
 - g. A pool “side cut” or structure detail plan of the pool construction is required.
4. This permit must be received before beginning the work unless otherwise specifically authorized by the Code Enforcement Officer.
5. The Building Permit placard must be posted on the property so that it is readily visible from the street. This Building Permit application and the most current set of building plans, as approved, must be kept on the premises until the completion of the work authorized by such permit. No change to the work may commence without the review and approval of the Code Enforcement Officer, and any change must be submitted to the office of Building and Zoning in writing and or drawing form unless otherwise authorized by the Code Enforcement Officer.
6. No building shall be occupied or used in whole or in part for any purpose whatsoever until a Certificate of Occupancy shall have been applied for in writing and granted certifying that such building conforms substantially to the approved plans and specifications submitted with this building permit application and the requirements of the ordinances applying to buildings of its class and kind unless otherwise authorized by the Code Enforcement Officer. A “Request for Certificate of Occupancy Form” is available from Village Hall.
7. No Certificate of Occupancy will be issued until a certificate of approval is obtained from one of the approved and duly authorized electrical inspection agency and a copy of same approval is provided to the Code Enforcement Officer. The following electrical inspection agencies have been duly approved by the Village pursuant to §19 of Village Code:

<p>New York Board of Fire Underwriters 40 Fulton Street New York, NY 10038-1857 Phone 631-544-0532 or 212-227-3700 Fax 631-269-5062 or 212-385-3740</p>	<p>Electrical Inspectors Inc. 308 East Meadow Avenue East Meadow, NY 11554 Phone 516-794-0400 or 800-794-1468 Fax 516-794-5854</p>
<p>Electrical Inspection Service, Inc. 375 Dunton Avenue East Patchogue, NY 11772 Phone 631-286-6642 Fax 631-286-6683</p>	<p>Long Island Electrical Inspection Service, Inc. 670 Middle Country Road St. James, NY 11780 Phone 631-265-3075 Fax 631-265-6057</p>
8. No Certificate of Occupancy will be issued until a certificate of approval is obtained from the authority or agency having jurisdiction over the sanitary system and a copy of same approval is provided to the Code Enforcement Officer.
9. This application does not - and shall not be construed to – alleviate any responsibilities for compliance with or satisfaction of any requirements of any other agency, authority or similar entity having jurisdiction. Such permission, permit or similar approval is known to exist, pending, or in effect is expressly noted herein as the sole responsibility of the Owner. Similarly, this permit application or the issuance of a building permit can not and shall not be construed to supersede or mitigate in any fashion whatsoever any other Permits issued or pending by other Authorities having jurisdiction nor any terms, conditions or similar restrictions contained therein.
10. It is the responsibility of the applicant and all agents, subcontractors, workers or other persons or entities employed by or similarly associated with the work governed by this building permit to be entirely familiar with and compliant with the Code of the Incorporated Village of East Hampton, which includes The Codes of New York State. Complete Village Code Books as well as Land Use & Zoning booklets are available for purchase at Village Hall. The code of the Village may also be accessed on the Internet at www.generalcode.com. Additional information can also be found on the Village web page, www.easthamptonvillage.org. For information on obtaining a copy of The Codes of New York State, please contact Village Hall.

11. Property Owners are advised that ADA (the Americans with Disabilities Act) Compliance is required for all projects that involve public accommodations with specifically limited exemptions. The ADA is not applicable to single-family residential construction.
12. This application does not - and shall not be construed to – alleviate any responsibilities for compliance with any parking rules of the Incorporated Village of East Hampton. These local laws are posted and administered by the Village Police Department.
13. This application does not - and shall not be construed to – alleviate any responsibilities for compliance with any rules or local law of the Incorporated Village of East Hampton regarding Streets and Sidewalks. These local laws are administered by the Superintendent of Public Works, the Village Police Department and the Code Enforcement Department.
14. This application does not - and shall not be construed to – alleviate any responsibilities for compliance with any rules or local law of the Incorporated Village of East Hampton regarding signage. These local laws are administered by the Village Police Department and the Code Enforcement Department. You are permitted one sign not to exceed 12 square feet in area announcing or listing the builders, contractors, design professionals, landscapers, subcontractors and material suppliers working on the lot. The sign must be installed entirely on private property – consult the property survey before installing any sign. If located in any designated historic district, the approval of the Village Design Review Board is required prior to installation. The sign must be removed before a Certificate of Occupancy will be issued.
15. The installation of carbon monoxide detection devices and the certification of such installation may be required by the Executive Law of New York State (for all one and two family dwellings and any dwelling accommodation located in a building owned as a condominium or cooperative, constructed or offered for sale) or the Suffolk County Health Code.
16. On site parking, as required by the Code of The Village of East Hampton, must be indicated on any site plan or survey submitted with a building permit application. Every lot used for a residential use shall provide on-site parking for a minimum of two vehicles. Lots used for commercial uses are regulated by §57-6. (Parking Requirements) of the Code of The Village of East Hampton.

Mobile Telephone:

Note that any such installation will require additional inspections as follows:

For masonry fireplaces: An inspection of the firebox and damper assembly and an inspection of the chimney before it is capped.

For all pre-fabricated fireplaces (including decorative heating appliances): An inspection of the fireplace or appliance and the chimney assembly when installed and prior to the closing of the chase or cavity.

IT IS UNDERSTOOD as follows:

1. The work will not be commenced until the permit is issued unless otherwise authorized.
2. The work will be carried out in compliance with the plans and specifications approved. Any change to the work will be submitted in writing and or plan form for review and approval by the Code Enforcement Officer before commencing unless otherwise authorized.
3. The work will conform with all applicable provisions of the Code of the Incorporated Village of East Hampton, The Codes of New York State and all other laws governing building construction and safety.
4. Said structure will not be used or occupied until authorized or a certificate of occupancy is issued.
5. The Code Enforcement Officer(s) of the Village of East Hampton is hereby authorized to come onto the premises herein described without a search warrant during the course of construction and thereafter to ascertain compliance with the Code of the Incorporated Village of East Hampton, The Codes of New York State and all other laws governing building construction and safety.
6. It is the responsibility of the permit holder to have the work inspected as required by law. Reasonable notice is required so that inspections can be scheduled. Inspection requests can be made by phone (631-324-4150), facsimile (631-324-4189) or email (tlawrence@easthamptonvillage.org), and must at least indicate the Building Permit number, the name of the person making the request and the inspection needed – it is not necessary to speak with the Code Enforcement Officer to schedule an inspection. The following inspections are required:
 - i. Footing / Foundation
 - ii. Framing
 - iii. Roof and Wall Sheathing Fasteners (before application of vapor barrier)
 - iv. Ice Shield Installation (before application of roofing)
 - v. Plumbing / Heating
 - vi. Insulation
 - vii. Gypsum Panel (Wallboard) Fasteners (before first coat of spackle or scratch coat)
 - viii. Final

STATE OF NEW YORK)

ss:

COUNTY OF SUFFOLK)

I, _____, being duly sworn, do hereby depose, certify and state that I am the owner or a duly authorized agent for the owner of the property described herein, am duly authorized to make and file this application, am duly authorized to perform the work proposed herein, and, by affixing my signature below, do further hereby certify and attest that I have read and understood the notices contained in this application and agree to abide thereby, that all of the information and statements contained in this application are true to the best of my knowledge and belief, and that the work will be performed only as described and in full compliance with all applicable law, rule and regulation.

I make this an application to the Code Enforcement Official of the Incorporated Village of East Hampton for a building permit in accordance with the duties and powers conferred upon said officer by the Code of the Incorporated Village of East Hampton. Application is hereby made for a building permit in accordance with the above information and with the plans and specifications submitted herewith and made a part hereof.

This information is based upon personal knowledge, information and belief. False statements made herein are punishable as a Class "A" Misdemeanor pursuant to section 210.45 of the N.Y.S. Penal Law.
